# Welcome

## to the Monroe 2-Orleans BOCES Professional Development Guide

The Office of Curriculum, Instruction and Professional Development at Monroe 2-Orleans BOCES is comprised of a skilled team of administrators, professional development specialists and clerical support committed to providing a high-quality service to our component school districts.

We support the districts in our region in engaging in continuous professional learning by offering a range of professional development experiences for administrators, teachers and professional support staff that are grounded in current educational research. All of the Monroe 2-Orleans BOCES professional development sessions and support services are aligned to the instructional priorities of our local school districts and the New York State Department of Education. Our professional development sessions are facilitated in a manner that reflects best practices in the field and based upon the principles of diversity, equity and inclusion.

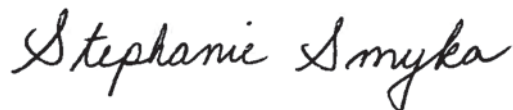

The Office of Curriculum, Instruction and Professional Development employs a variety of models to support implementation of the New York State Learning Standards, leadership development, effective practices in the K-12 classroom, and data-informed instruction. In addition to workshops, professional development models include job-embedded professional learning through instructional coaching, synchronous and asynchronous online platforms, and professional learning communities. Monroe 2-Orleans BOCES offers a number of high-quality services for teachers and leaders such as the BOCES 4 Science; Finger Lakes Regional Adult Education Network (FL-RAEN), Mid-West Regional Bilingual Education Resource Network (RBE-RN) and Reading Recovery. These services support our districts in assuring that teachers in our region have the tools they need to provide excellence and equity for all learners.

True to the Monroe 2-Orleans BOCES mission, our office is committed to providing quality, cost-effective services, and partnering with districts to develop authentic professional development services designed to improve student achievement. If you have questions or comments about any of the offerings in The Guide to Complete Professional Development, please contact our office at (585) 352-2704 or via [email at profdev@monroe2boces.org](mailto:profdev@monroe2boces.org).

## Why BOCES 2?

The Monroe 2-Orleans BOCES Office of Curriculum, Instruction and Professional Development works directly with component school districts to develop offerings that align to the New York State Department of Education's Reform Agenda and district initiatives. In partnership with our districts, we work to support state and district reforms by contracting with a variety of nationally recognized authors and presenters to provide workshops, and then offer follow-up sessions and coaching to assist with implementation.

Specifically, the professional development offerings at BOCES 2 cover the gamut of current trends in educational philosophy and teaching techniques. Subject matter experts teach relevant sessions in a relaxed atmosphere. We make it easy for you to stay up to date.

If you don't see what fits your needs here in the offerings guide, please contact us via phone at (585) 352-2704 or email at [profdev@monroe2boces.org](mailto:profdev@monroe2boces.org). We're happy to create customized training for your specific requirements.

## Registration Procedures

### Registration Information

Unless otherwise noted, registration is limited and closes two weeks prior to workshop sessions. Please follow the appropriate registration procedure for your district. All participants must register online through Monroe 2-Orleans BOCES MyLearningPlan WebReg Catalog.

The link to "Online Registration with MyLearningPlan" can be found under Quick Links on the Office of Curriculum, Instruction and Professional Development's home page. You can also go directly there using this link: [www.monroe2boces.org/CIPDRegister](http://www.monroe2boces.org/CIPDRegister)

Please contact our office at 352-2704 to discuss.

**All Other Offerings:** Unless otherwise noted in the course descriptions, workshops require a minimum of 48 hours' notice of your inability to attend. If prior notification of your inability to attend is NOT received, registration fees still apply.

# Communications

The Communication Group is part of the Monroe 2-Orleans BOCES Communication and Technology Services (CaTS) department. This group provides school communications planning, media relations, printing and graphics services, video production, photography, social media and Web content management.

Arrangements can be made to bring these trainings to your site. Please contact us for more information about customized trainings. Contact the Communication Group at (585) 349-9067 for more information regarding the offerings.

## Building a Better School Newsletter: Writing and Photography

Learn how to build a better newsletter one article at a time at this session designed for school staff responsible for producing newsletters. In this session, participants will learn from the BOCES 2 School Information Services (SIS) staff about skills and strategies that can be used to improve their publications. Additionally, basic photography techniques will be covered as a way to enhance all materials.

## Front-line Communication

In the educational arena, investing in front-line communication can effectively enhance communication between the community and school district staff. In this session, participants will learn about the multiple benefits of better front-line communication, as well as gain the skills and strategies needed to implement meaningful programs that help staff improve the way they communicate.

## Managing Difficult Situations: School Crises in Action

This session is designed for school officials, including administrators and crisis teams, who may be called on to help with a crisis or difficult situation in a school. A brief overview of modern media and media relations tactics will be tailored to school officials, including how participants can utilize these various skills and knowledge to help a school manage and cope with a difficult situation. Hands-on activities, including mock interviews, will walk participants through the process of preparing and delivering effective messages that drive home their key objectives for their most important audiences, including staff, students and parents.

## *Mid-West RBE-RN*

The Mid-West Regional Bilingual Education Resources Network (RBE-RN) is part of the NYS Education Department's networks of support for schools. The goal of Mid-West RBE-RN is to assist districts and schools in creating an optimal education environment for English Language Learners (ELLs), which fosters meaningful teaching and learning. Our expertise lies in researched-based instruction and assessment of ELLs, along with the alignment of those practices to the NYS Learning Standards. Contact the Mid-West RBE-RN office at (585) 352-2790 for more information regarding Mid-West RBE-RN offerings.

### Welcoming New ELLs: From Registration to Exit: A NYS ELL Identification Workshop

Creating a welcoming environment from the very start is imperative to the academic success of students and building partnerships with families of English Language Learners. This begins from the day that families step onto your campus to register new students. Participants will learn about the process of identifying students as English Language Learners (ELLs), including considerations such as program placement, SIFE designation, language proficiency teams, and exiting the program. This workshop is intended for anyone involved with the identification and welcoming of ELLs including school administrators, administrative support professionals, and teachers. Choose from one of two available sessions:

### Translation & Interpretation 101

What is the difference between translation and interpretation? What do schools need to keep in mind as they are looking to improve communication with multilingual families? In this course, participants will learn how to discern what is and isn't necessary when it comes to helping students and families who speak other languages understand what is being taught in the classroom and discuss best practices for communication with families. Through the exploration of accurate programs and knowing when it is appropriate to use them, participants will leave with ideas for culturally responsive and effective communication. This workshop is geared toward all teachers and administrators. There are two sessions to choose from:

## *Literacy: The Science(s) of Reading Series*

### The Art and Science of Reading Comprehension and Oral Language Development

This 1-hour virtual session explores how oral language development and listening comprehension are critical to reading comprehension. We will discuss what the research says and doesn't say about the complex processes involved in reading comprehension, and will share instructional approaches to comprehension at primary grades.

This session is part of our series reviewing topics relating to re-balancing our early literacy instruction. Sessions will be informed by current research in the field and key texts, such as *Shifting the Balance: 6 Ways to Bring the Science of Reading into the Balanced Literacy Classroom* by Jan Burkins and Kari Yates (2021). Though it is recommended to attend all six sessions, it is not required.

### Small Group Instruction with Emergent Readers

Meeting the needs of our most emergent readers (levels PreA-D) requires a sophisticated and nuanced approach to teaching. The reading and writing work that occurs at these stages lays a critical foundation for our readers to grow in sophistication and is often underestimated. This session takes teachers into a deep dive into an examination of the complexity of selecting seemingly unsophisticated text for our young learners.

Together we will:

- examine the needs of emergent learners at particular levels
- consider the characteristics of these "simple" texts and identify both the supports and demands on readers embedded within.
- consider ways to support and coach children through the inherent challenges found in these texts.

Identify instructional procedures that support reading, writing, and word work that can be implemented at the small group table

**Dates:** August 2-3, 2023

### Comprehensive Literacy Institute – Reading, K-2

A comprehensive approach to literacy instruction empowers teachers to engage in responsive teaching practices informed by ongoing assessment. This introductory institute provides teachers the opportunity to engage in inquiry and practice to ground themselves in the theory and research that supports a comprehensive approach to literacy instruction, including where the Science(s) of Reading are integrated in this approach. Teachers will learn the why and how behind the instructional practices utilized in a comprehensive approach to literacy instruction, including small group and large group instructional contexts such as: small group reading instruction, shared reading, modeled reading, interactive read-aloud, the role of decoding, etc. Participants will learn how these practices support students in achieving the outcomes aligned to the NY Next Generation Learning Standards for reading, speaking, listening and foundational skills.

**Dates:** August 14-15, 2023 and a third fall date (TBD during initial session)  
**Time:** 8:30 a.m.-3:00 p.m.  
**Audience:** K-2 classroom teachers, special education teachers, literacy coordinators, instructional coaches, etc.

## *Literacy: The Science(s) of Reading Series*

### The Art and Science of High Frequency Word Instruction

This 1-hour virtual session explores what the sciences are telling us about the teaching and learning of high frequency words and sight words. Join us for a discussion about best practices for learning these words based on what current research in the field is telling us.

This session is part 2 of our series reviewing topics relating to re-balancing our early literacy instruction. Sessions will be informed by current research in the field and key texts, such as *Shifting the Balance: 6 Ways to Bring the Science of Reading into the Balanced Literacy Classroom* by Jan Burkins and Kari Yates (2021). Though it is recommended to attend all six sessions, it is not required.

**Date:** November 14, 2023  
**Time:** 3:30-4:30 p.m.  
**Presenter:** Janet Hess  
**Audience:** K-2 classroom teachers, Reading Specialists and Literacy Leaders  
**Location:** Online via Zoom  
**Cost:** \$25  
**Registration:** Click [here](#) for details and to register

### The Art and Science of the Three Cueing Systems and Prompting

This 1-hour zoom session explores what the current research indicates about the use of the three cueing systems (MSV) during reading. Common misunderstandings around this hotly debated topic will be addressed.

This session is part 3 of our series reviewing topics relating to re-balancing our early literacy instruction. Sessions will be informed by current research in the field and key texts, such as *Shifting the Balance: 6 Ways to Bring the Science of Reading into the Balanced Literacy Classroom* by Jan Burkins and Kari Yates (2021). Though it is recommended to attend all six sessions, it is not required.

### Re-Balancing Your Balanced Literacy Framework for Instruction

Join us in this practical, in-person, full-day workshop where we will dig deeper into how to apply the Sciences of Reading daily in a Balanced Literacy Classroom.

We will explore instructional best practices for all components of Balanced Literacy, and explore the role of the teacher in making responsive decisions to inform instruction and prompting. There will be time for participants to apply the learning to their analysis of available assessment data and to their own lesson planning for use in classrooms right away.

**Date:** April 16, 2024  
**Time:** 8:30 a.m.-3:00 p.m.

#### Developing Decoding Skills in Young Learners

Dr. Lindsey will discuss what research tell us about reading, focusing on the importance and power of decoding. Then, she will help you understand how to empower yourself and your students with the highest leverage instructional practices to make sure children are able to efficiently and effectively become proficient word readers and spellers. Dr. Lindsey will offer you something to change or consider to make your foundational reading instruction more research aligned without sacrificing joy, cultural responsiveness, or comprehension.

Dr. Julia Lindsey

#### Workshop 1: The P Words: Phonics and Phonemic Awareness

Understand the critical aspects of whole group phonics and phonemic awareness instruction. No matter what curriculum you use, you'll be able to add new routines or swap your language to create more powerful phonics lessons.

#### Workshop 2: Beyond Phonics: Having "It All" in Small Groups

Learn about how to rethink small group reading (centers, stations, guided reading, etc.) to better match research and to support multiple purposes. Dr. Lindsey will offer you two ways to think about the utility of this time of day and a framework for evaluating the purposefulness of small group time. Then, Dr. Lindsey will discuss how content-rich decodable texts can support children's decoding and beyond. You'll leave with resources to ensure your next small group is even more purposeful for developing decoding skills.

**Speaker Bio:** Julia B. Lindsey, Ph.D., is a foundational literacy expert, consultant, and proud former elementary school teacher. Her work aims to help educators implement research findings in reading instruction.

She is the author of the newly released book, *Reading Above the Fray: Research-based Routines for Developing Decoding Skills*. Julia is also the creator of a framework for research-tested, content-rich decodable texts used by districts, curriculum developers, and tens of thousands of teachers across the globe.

**Date:** October 12, 2023  
**Time:** 8:30 a.m.-3:00 p.m.

#### Executive Functioning and Reading Comprehension: Why Don't My Best (Word) Readers Comprehend Text?

Many times, our students seem to have all of the necessary skills they need to be good readers (things like phonemic awareness, phonics, fluency, vocabulary, and comprehension strategies, to name a few), but somehow, they still struggle with putting all of these things together in order to comprehend texts. In this session, we will dig a bit deeper than the familiar skills listed above to explore essential thinking skills, called executive skills, that support successful word reading and reading comprehension. Executive skills are self-regulatory skills that help students manage their thoughts, emotions, and actions, and include things like working memory, inhibitory control (or self-control), and mental flexibility. These skills are often invisible to teachers and students. However, when students have weak executive skills, the results are often painfully obvious in the classroom. In fact, students who struggle with reading comprehension, despite appropriate word reading skills, show deficits in executive skills that can persist into adulthood! The good news for classroom teachers is that executive skills can be taught, resulting in improvements in these and in reading. In this session, participants will learn (1) more about executive skills, (2) specific ways that they support skilled reading, and (3) research-tested strategies for assessing and strengthening students' executive skills and reading.

This session will occur in a hybrid format, with Dr. Cartwright presenting via facilitated webinar for the morning session, and a facilitated discussion about implications and application for the afternoon session.

**Speaker Bio:** Kelly B. Cartwright, Ph.D., Professor of Psychology, Neuroscience, and Teacher Preparation at Christopher Newport University, directs the Reading, Executive function, And Development Lab (READ Lab) and is a Research Scholar for the Center for Education Research and Policy. Kelly studies the neurocognitive and affective factors that underlie reading processes and difficulties from preschool through adulthood. She regularly works with educators throughout the US to better understand and improve reading, and these experiences inform her research.

# Curriculum and Professional Development

## *Curriculum Design*

The Office of Curriculum and Professional Development provides offerings that reflect current trends and practices in a number of areas. Professional developers utilize best practices in their instruction to provide support for a variety of educators. We are happy to tailor programming to meet the needs of your district.

Call (585) 352-2704 for more information regarding the Curriculum and Professional Development offerings.

### Curriculum Review/Audits

The Curriculum Review/Audits service is intended to assist districts in the evaluation of their curriculum and/or programs. Curriculum Reviews/Audits consist of classroom visitations, interviews with teachers/administrators, teacher and administrator surveys, a review of available resources, and a comprehensive report of findings and recommendations. Each curriculum review/audit will be developed in conjunction with the district and individualized to meet their needs.

Curriculum Reviews/Audits are conducted by a Monroe 2-Orleans BOCES team consisting of the Assistant Superintendent for Curriculum, Instruction and Professional Development and instructional specialists.

### Curriculum Writing

This service is intended to assist districts in writing curriculum K-12 that aligns with NYS Learning Standards and core curricula. Best practice in curriculum design is utilized at Monroe 2-Orleans BOCES.

Collaborative curriculum development is available, as is BOCES 2 development and writing of documents for districts. The goal of these writings is to develop flexible, responsive documents that ensure coverage of key content and skills while providing maximum opportunities to incorporate resources and teaching strategies that meet the needs of a diversity of learners.

# Curriculum and Professional Development

## *Services*

Monroe 2-Orleans BOCES is pleased to offer a range of instructional services designed to support districts in achieving high-levels of success in identified areas of need. For more information about how to employ these services in your district, please contact the Office of Curriculum, Instruction, and Professional Development at (585) 352-2773.

### Special Education Instructional Service

The Special Education Instructional service is designed to improve understanding of the academic and behavioral needs of students with disabilities; along with improved instruction in the classroom resulting in an increase in student achievement. Students with disabilities have the right to high-quality instruction to reach the same standards as all students. Our goal is for students to leave school prepared to successfully transition to post-school learning, living, and working. All special education services provide access in order for students to make meaningful connections to their education and future.

Our Special Education Specialist can support teachers and administrators of students with disabilities through a variety of services, including but not limited to: technical assistance, job-embedded support, and district or school systems work. The Special Education Specialist is able to support any work related to the State Performance Plan (SPP) Indicators in accordance with the Individuals with Disabilities Education Act (IDEA).

### Instructional Coaching – Math and Literacy

Well-versed in research, theory, and best practices of instruction, our experienced personnel will partner with teachers and building leaders to set goals for improved student achievement. Through this partnership approach, coaches will work with teachers in a job-embedded format as they move through the stages of a coaching cycle, including gathering of data to inform goals, demonstrating new instructional practices, coteaching of lessons, engaging in reflective conversations, providing feedback, and collecting evidence of student achievement.

In addition to 1:1 opportunities, our coaches can model lessons for groups of teachers, conduct group meetings on an ongoing basis, assist with the development and implementation of standards-aligned lessons, and support the deep analysis of student work.

With their expertise in the Next Generation Standards for English Language Arts and Mathematics, our coaches can assist districts in meeting the increasing demands by working collaboratively with teachers to provide high-quality instruction.

### Literacy Audit

Designed to address district-specific questions, this service can provide a “state-of-the state” look at K-12 literacy programs. The audit process can be completed with a focus on curriculum alignment and vertical articulation, resource implementation or assessment results. BOCES 2 staff will work with district personnel to develop a framework that meets district needs.

Audit services can include but are not limited to:

- Review of curriculum documents with a focus on NYS grade-level standards.
- Classroom walkthroughs to address resource and strategy implementation.
- Grade-level meetings to investigate teacher perception of program strengths/needs.
- Principal interviews to gather leadership data on the state of the literacy program.
- An analysis of professional development opportunities and their impact on classroom instruction.

Districts are encouraged to meet with BOCES 2 staff to create an individualized audit process, utilizing only those elements that serve to answer their unique literacy needs. A thorough report with program analysis and needs assessment will be included for participating districts.

### Instructional Coaching Services with the Whole Child in Mind

Whole Child Coaching Services is a proactive support for all content areas K-12 which will address the initiatives within ESSA. Experienced coaches will support teachers with student skill development and purposeful integration of early learning standards, the SEL 5 Core Competencies, and explicit teaching around social emotional skills.

The services will be designed to support teachers and administrators in meeting their students’ social and emotional needs; including but not limited to: technical assistance, modeling lessons, best practice resources, job-embedded support, and professional development.

Support options include:

- Implementation of the New York State Social Emotional Learning Benchmarks
- Identification and implementation instructional practices aligned with NYSED’s P–3 Early Childhood Learning philosophy
- Effective incorporation of play as a strategy (intentional vs exploratory)
- Incorporation of Mindfulness practices
- Character Education
- Complementary support of the work of The Children’s Institute and Partners in Restorative Initiatives

# BOCES 4 Science Professional Learning

## ELS and ILS Investigations Professional Learning

The Investigations are hands-on laboratory experiences that prepare students for the written Elementary- and Intermediate-Level Science Tests that will be administered in Grades 5 and 8, respectively, in Spring 2024. At least 15% of the questions on the written tests will measure content related to the performance expectations measured by the Investigations. Other questions will assess concepts related to the activities undertaken by students in the Investigations.

The Investigations are designed to be embedded into instruction and can be offered any time prior to the written tests. Teachers may administer them when the particular learning standards assessed within each Investigation are addressed by their instruction or at another time of their choosing. The Investigations provide hands-on opportunities to demonstrate attainment of science knowledge and skills but are not considered state tests; rather, they are locally-administered performance-based tasks.

For information about regional ELS and ILS Investigations Professional Learning, please see the BOCES 4 Science website (<http://www.boces4science.org>) for the most up to date workshop offerings. To request in-district ELS and ILS Investigations workshops, contact Lisa Zeznick, Assistant Director of BOCES 4 Science, at [lzeznick@monroe2boces.org](mailto:lzeznick@monroe2boces.org).

# BOCES 4 Science Professional Learning

BOCES 4 Science is committed to ensuring that science unit training is widely available. Curriculum-Embedded Professional Learning about the NYSSLS is included with all BOCES 4 Science unit training and is available for FREE to districts using the corresponding science unit.

## Curriculum-Embedded Professional Learning

Teaching science is changing. The New York State Science Learning Standards (NYSSLS) provide guidance for new curriculum and the shifts in instruction that are integral to it. When teachers attend training sessions on each unit, they dive into the appropriate NYSSLS topic. The lessons in the unit are written to be three-dimensional, and the margin notes in the Teacher's Guides focus attention on those 3-D elements. In addition, the training sessions emphasize how instruction has shifted with the new standards. BOCES 4 Science educators are always ready to provide support after these sessions, as teachers and students embark on this new adventure.

BOCES 4 Science Embedded Professional Learning courses, as well as all supporting materials on the BOCES 4 Science website, are free with the lease of the corresponding unit. Upon completion of a BOCES 4 Science Professional Learning course, participants will earn the number of CTLE credits appropriate for the length and complexity of the training. In-person and online formats are offered. Please consult the BOCES 4 Science website (<http://www.boces4science.org>) for detailed information about course dates and times. If you don't find what you need, contact Lisa Zeznick, BOCES 4 Science Assistant Director, at [lzeznick@monroe2boces.org](mailto:lzeznick@monroe2boces.org) to discuss course format and date preferences to meet your needs.

## Additional Professional Learning Workshops

### Science “Look-Fors” .... Especially for Administrators

The New York State Science Learning Standards (NYSSLS) have changed how science should be taught. How will you know if your school’s science education is aligned to the NYSSLS and 3-dimensional science instruction? This session provides an overview of specific shifts in the teaching of science and what administrators should “look for” when visiting classrooms.

**Date:** TBD (Check the BOCES 4 Science website for the most up to date information.)  
**Time:** TBD  
**Location:** Online (Zoom) – Registrants will receive Zoom link the day before the session  
**Presenters:** Steve Montemarano & Lisa Zeznick  
**Audience:** School Administrators K-12

### The NYSSLS and Instructional Shifts in Science

The New York State Science Learning Standards (NYSSLS) emphasize 3-Dimensional teaching and learning that incorporates Science and Engineering Practices, Disciplinary Core Ideas, and Cross Cutting Concepts. This session examines how these standards are structured and how the instructional shifts change the way that science is taught in the classroom to help students move from learning facts to making sense of the world around them.

**Date:** TBD (Check the BOCES 4 Science website for the most up to date information.)  
**Time:** TBD  
**Location:** Online (Zoom) – Registrants will receive Zoom link the day before the session  
**Presenter:** Various BOCES 4 Science Instructors  
**Audience:** K-12 Teachers and Administrators

### Making Sense of the ELS & ILS Investigations .... for Administrators\*\*

Join us for this informative 1-hour session in which we will shed light on the new NYSED Elementary and Intermediate Level Science Investigations. We will discuss the rationale behind their development, the gist of each lab, various factors affecting administration of the investigations, and the pros and cons of different implementation options for districts.

**Date:** TBD  
**Time:** TBD  
**Location:** TBD  
**Presenter:** Lisa Zeznick  
**Audience:** District & School Administrators K-12

## Self-Paced Professional Development

*Our Self-Paced PD offerings are available around the clock, giving you convenient access to learn on your own schedule. Enroll in these quality web-based courses and access PD resources on the most current topics affecting teachers today, all at a time that works best with your busy schedule!*

## Getting Started with the Universal Design for Learning

The Universal Design for Learning (UDL) is a framework for designing instruction that is accessible and optimized for all students. This self-paced session introduces the UDL guidelines and how they support teachers removing obstacles from learning and honoring student variability. By the end of this self-paced session, you should feel comfortable using the guidelines as a lens to begin to make small tweaks that amount to meaningful and challenging learning opportunities that all students can access. The link to this session will be emailed to you after you register.

## Teaching with Minecraft

Minecraft is a powerful learning environment with limitless possibilities. Students are empowered to represent their learning in visual, interactive ways all while developing 21st century skills through authentic experiences. Wondering how Minecraft works and how it might work for your content and classroom? Start here! The link to this self-paced session will be emailed to you after you register.

## Strategies for Manageable Small Group Instruction

How do we engage students in meaningful learning when everyone needs something different? How do we find the time to put together small group instruction that has an impact? This self-paced PD examines the planning and facilitation of small group instruction in order to provide you a set of manageable strategies to make student-centered learning happen. The link to this session will be emailed to you after you register.

## Feels like a Game!

What if school were your students' favorite game? Learn how you can borrow from popular games to make instruction more playful and engaging during this self-paced session. Create experiences that will stick for your students and let's leave the world a little more playful than we found it. The link to this session will be emailed to you after you register.

## Escape the Ordinary

Everyone loves a good mystery. It is human nature to want to close open loops. Escape rooms take advantage of this nature- placing people in a room with all the tools and information they need to escape, but requiring problem-solving, creativity and collaboration to make it all come together before time runs out. This self-paced PD will give you the what, why, and how of using escape room design in your classroom, as well as tons of tips, resources, and examples. The link to this session will be emailed to you after you register.

## Universal Design for Learning: Multiple Means of Engagement

If you know what UDL is and why it's important, but are struggling to turn it into action, help has arrived. This self-paced session takes a deep dive into the first principle of UDL – providing multiple means of engagement. You will unpack the guidelines and checkpoints of this principle and leave with a menu of strategies you can use to turn your classroom into the flexible learning space your students are craving! The link to this session will be emailed to you after you register.

## Artificial Intelligence and Impacts of Computing

New York State's Computer Science and Digital Fluency Standards couldn't have taken shape at a more opportune time. Artificial Intelligence is turning the educational world on its head and this session will examine its impact through the lens of New York's "Impacts of Computing" standards. You will explore educational resources that have embraced AI, unpack the "impacts of computing" standards in relation to AI, and have conversations about the potential paths this newly ubiquitous technology could take us. The link to this session will be emailed to you after you register.

## *Distance Learning Professional Learning Opportunities*

Distance learning can enhance teaching and learning in any context to ensure flexibility, continuity, and differentiated instruction for learners and educators. It takes more than knowing the technology – users must understand how to utilize technology to improve learning. These professional learning opportunities will provide participants with a new set of experiences, skills, resources, and knowledge that will support them as they implement the ideas in their classrooms.

To learn more or if you have question, please contact Donna Farren, Distance Learning Specialist at [dfarren@monroe2boces.org](mailto:dfarren@monroe2boces.org).

### Schoology Sessions

*Schoology sessions are designed to build knowledge or to gain new ideas on using the features of Schoology. You can come to one or more of them in any order. They are designed to be short and virtual to allow as many people as possible to join. They will be recorded.*

# MAARS

The following MAARS regional offerings are intended for any member of the 19 Monroe One and Monroe 2-Orleans BOCES component districts to attend at no additional cost. Districts who wish to offer these sessions, or other sessions tailored specifically for their own educators, may contact Lorena Stabins at [lstabins@bocesmaars.org](mailto:lstabins@bocesmaars.org) or Ryan Maier at [rmaier@monroe2boces.org](mailto:rmaier@monroe2boces.org)

## Culturally Responsive Assessment Practices

Many teachers have created a welcoming and accepting culture in their classrooms. However, do the assessment practices we currently use contribute to or work against that culture? What tweaks can classroom teachers make to their assessment practices so that it benefits all students? Together we will examine different assessment practices through a culturally responsive lens to answer these questions and more.

**Date:** November 7, 2023

**Time:** 3:30-4:30 p.m.

**Location:** Online via Zoom

**Presenter:** Lorena Stabins

## eLearning eDoctrina

In this Schoology course entitled “eLearning eDoctrina,” you will be using a training account so you can perform actions worry-free within the eDoctrina system, from locating assessments to scoring and reporting. After this course, you should feel more comfortable in your ability to use this platform to both administer assessments and collect valuable data.

**Date:** Asynchronous

**Location:** Online via Schoology

**Presenter:** Ryan Maier

## Creating Assessments in eDoctrina

eDoctrina is a vast assessment creator that can take almost any assessment you use currently and move it online. The data that comes from eDoctrina is so informative for instructional decisions and even report cards. But the first step is getting your tests online! There are several ways to create your own assessments.

Here are up to 4 possible assessments you can create in this course:

1. Answer-key only test with PDF Upload
2. Build Questions Assessment
3. Rubric Assessment
4. Question Bank Assessment

**Date:** Asynchronous

**Location:** Online via Schoology

**Presenter:** Ryan Maier

## eDoctrina: Reports and Digging into the Data!

Those reports in eDoctrina sure are something! Enroll in this course to learn about each of the main reports that could open up huge data-rich conversations within your district. From seeing how students answered each question to comparing my class to others, you will have the opportunity to generate and reflect on 6 reports.

**Date:** Asynchronous

**Location:** Online via Schoology

**Presenter:** Ryan Maier

## Reimagining Assessments

More students are struggling than ever before and trying something new with our assessments could go a long way in helping all students succeed.

This course is designed for teachers who want to truly measure what students know, understand, and can do. We have compiled several strategies to help you modify your already-made questions as well as create new ones that will accurately reflect students’ learning. This course consists of two live Zoom meetings with independent work time to implement the strategies shared in between. There will be opportunities for sharing ideas with others, feedback, self-reflection and planning next steps. Teachers are welcome to register as individuals or with a colleague to collaborate.

**Date:** October 25, 2023, November 15, 2023

**Time:** 3:30-5:30 p.m.

**Location:** Online via Zoom

**Presenter:** Lorena Stabins and Ryan Maier

## The Questions You Ask

Do you ever think about the questions you typically ask your students during instruction? Teachers use questions every day to enhance their students’ learning. The quality of these questions is fundamental. Questioning spans the teaching and learning process when questions help to build students’ knowledge and teachers seek to understand the thinking behind student responses. Participants will discover how questioning with intentionality can lead to increased student engagement, meaningful discussions and higher-level thinking.

**Date:** September 19, 2023

**Time:** 3:00-5:00 p.m.

**Location:** Monroe 2-Orleans BOCES  
Educational Services Center  
Conference Room 3 A/B

## Book Party

We're librarians and we love books. Let's talk about them! This PD is an opportunity to bring librarians from across Monroe One and Monroe 2 regions together to share new books that should be read, celebrated, and added to our collections. Each participant will choose at least 1 recently published book to share and review.

This will be asynchronous, self-paced, and open to books for kids of all ages. The book reviews will be posted on a LibGuide- details will be sent to those who register. At the end we will have a virtual meeting where we share out all the titles and celebrate your work.

You do not have to participate in the live meeting at the end. The meeting date will be determined by the participants- date listed below is a place holder. This session is a collaboration between Monroe One and Monroe 2 BOCES.

**Date:** July 1, 2023 to June 14, 2024  
**Time:** Asynchronous  
**Format:** Online  
**Presenter:** Lindsay Neumire & Liesl Toates  
**Audience:** Librarians

## AI and Media Literacy

Artificial intelligence is a hot topic, both in education and in our personal lives. While the possibilities are exciting, there are potentially negative consequences for us and for our students. The rise of widely available generative AI tools has serious implications for the future of media literacy. Moving forward, it will be more important than ever that our students have the skills to analyze the media they encounter and the habits of mind to think critically before reacting. In this session, we will explore AI tools you can use tomorrow, and talk about how to view AI through a lens of media literacy.

**Date:** September 21, 2023
