With more than 30 years of administrator experience, Jim Thompson is a highly respected and decorated educational coach as well as well as coauthoring [A Quick Guide To Video Coaching](#) with Dr. Casey Kosiorek.

More than standard observation, video coaching allows teachers to look critically at their own work, self-reflect, and, with the aid of Thompson's experience, identify strengths and growth opportunities. Thompson will help participants in the video coaching cohort set goals and guide them toward realization.

After the initial orientation, participants will meet individually with Thompson via virtual conferences throughout the process. The cohort will reconvene at the end of the session to reflect as a group on the process. A selfie video tech support meeting is also provided.
